About Us

About Us

Dance Exploration, LLC's **Educational After School Program** began in November of 2008 as a Mobile Dance Studio reaching children in local Jefferson County Schools and Day Cares. Since 2009 we have reached 30 schools and community locations and over 1700 children in the Jefferson County and Denver Public School Districts!

Our Educators

Dance Exploration, LLC **Educators** are loved by our parents and students alike for being readily available, energetic, friendly and for putting our customers first! They are a unique group of individuals who have a wide range of experiences in dance, early childhood development, education, and healthy living.

Our Educators have been rigorously **trained, auditioned, and tested** prior to receiving their Certification in **Dance Exploration, LLC "Dance to Learn!" Curriculum and class flow**. They are also trained on early childhood development, elementary education, how to create a "Yes!" Environment, and how to provide a DancEx customer

experience. Our Educators are all CPR and First Aid Certified and follow strict safety guidelines and procedures to ensure our students are safe.

Our Mission

"Dance to Learn!"

We believe that dance is not only an outlet for self expression, but an important tool to motivate and inspire success in children. Our **Recipe for Success** combines regular dance principles along with Important Developmental Skills, School Subjects, and Life Lessons to promote a learning experience along with fun!

Our Vision

To collaborate with all community educational institutions and provide **accessible** and **affordable** dance classes to all children!

Our Business Philosophy

Every child should have the **chance to dance!**

By making our services readily **available** and **affordable**, we can ensure that more children are educated in dance and its plentiful **benefits**.

Educational Programs

stage, yet nursery rhymes, numbers, the alphabet and spelling games are encouraged!

- Creative Dance
- Pre-Ballet
- Combos
- Jr Hip Hop (New!)

Our Programs

Dance Exploration, LLC offers four After School Dance Programs for Preschool, Elementary, Middle and High School Students. Our Programs focus on our unique "Dance to Learn!" curriculum which uses our Recipe for Success to ensure a higher level of learning than that found in any other dance program.

Our Programs are offered at the schools which the participants attend and at an affordable price!

Along with our highly sought after After School Programs, we also offer one time themed Workshops.

Preschool Program

Pre-K to Kindergarten

These classes will require a curriculum to stimulate the children's cognitive development, language development and social skills. Teachers will be required to create a "Yes" environment where children can learn and are encouraged to express themselves artistically.

No writing or reading activities are included at this

Elementary Program

1st-6th Grades

These classes require a more progressive based syllabus which encourages a child the artistic freedom to express themselves through dancing. Children in these classes should be taken through a structured class including warm ups, across the floor and a choreographed dance. Warm ups should include Vocabulary where children read, write and spell dance terminology of the genre they are learning. A new Vocabulary word should be explored every week. Children are also asked to read a dance book related to their genre as well as write a book report due by the end of the class. This is required to receive the graduation certificate handed out at the end of the session. Other dance related activities should explore Math, Science, History and more.

Ballet

Hip Hop

Boys Only Hip Hop

Musical Theater

Breakdancing (New!)

Poms (New!)

Middle and High School Program

7th-12th Grades

The Junior High and High School Programs should be offered as a motivational class for students! All students should be encouraged to join, however we want to teach children that dance can help them stay motivated, determined and give them a sense of self worth all of which should help them succeed in school! Therefore at this stage, we want to encourage a **good grade system**. Students who have an "A" average will be asked to join our Intern Program. These students can work for Dance Exploration as an Intern Assistant Teacher. This great program will help them learn what it's like in the job force, and some may have a new job waiting for them when they graduate!

As in the previous elementary programs, these children will explore dance vocabulary, history and movements. They will still need to read a book and write a report in order graduate from the program.

What Our Customers Say!

"My favorite part of the class was the dancing! It was so much fun learning the moves and my teacher helped us by explaining all the moves and how to do them!"

~Jordan, 4th Grader at Dutch Creek Elementary

"My favorite part of class was when we worked on our dance because it was a great way for us to all work together as a team."

~Crystal, 4th Grader at Pinnacle Charter School

"I liked the Dance Exploration class because it gave me the chance to express myself!"

~Rebekah, 5th Grader at Pinnacle Charter school

I am impressed with the Teacher keeps the lessons developmentally appropriate, yet introduces true dance techniques and vocabulary associated with ballet. (My three year old now knows arabesque!) She is very good at keeping her lessons adequately paced for the age group and therefore keeps the kids highly engaged. Most importantly, she keeps the learning fun. "

~Katie, Sophia's Mom

We love Dance Class! DE is the Best!!

~Sherri, Boston and Berlin's Mom

My daughter takes classes at Primrose and LOVES it!

~Donte, Ashlyn's Dad

Great Community Outreach Program!

~Cheryl Buck, Preschool Director Jeffco Open Schools
